

Divine Spark

This symbol is about activating your own inner divine essence. It sparks the Spiritual heart (on the right side of the chest) and connects you to your inner Guru.

All that you are looking for in the outside is already within. Knowing it by the mind is a very different state than feeling it in your heart, your entire body and even in your cells... this is the kind of KNOWING that gets activated by working with this powerful symbol.

It will lead you to realizing you are IT... GOD is YOU... You are DIVINE.
